JD's Administrator update

Permit comparisons 2018 v 2019, down 850 riders y/y.

Down 2 permits, though Frozen Four permitted individually

Returning road events down an average of 10%.

Gravel/non competitive roughly equal to 2018.

Mountain up 309 days (30%), but this is not an area NEBRA administers or gets paid to work on

New USAC State / Regional Championship medals have arrived

They are larger and mightier than the old medals, distributing to events

Bethel Training Series Returns

As a weeknight training race at first, maybe a spring series eventually

Missing Rider Day Rebate Update

Maybe someday someone will be able to give us an answer on why our numbers don't match -- another ongoing project

SafeSport for Clubs Rollout

This rollout was messy -- should just be licensed club officers and people working directly with juniors. Training is free for all USAC Licensees

Supporters Hats/Socks updates

NEMBAfest

NEBRA would like to do something to be present here -- not as clear what the pitch/hook is since it's a MTB event but we are looking to partner with USA Cycling on this.

Next call: July 1st 8pm
