confirm the Weigands role as a point of contact - They were reluctant, Colin will be the switchboard for now

post meeting minutes - Done

give Mike admin access to our FB page - Done

give Mike our Twitter credentials - Done

Discussion

Racing calendar update -- either there's no new permits, or Colin doesn't get emailed on new permits like he's supposed to.

Todo: See if the NEBRA calendar can be brought up to date from USAC data
Sanctioned events in late June/early July have all canceled, but some unsanctioned events are happening or making lots of noise about happening. Even some CX races (i.e. Quad Cross) have already pulled the plug

Mass start road events are likely not going to be allowed at any point this summer -- can we brainstorm alternatives? What about for cross season?

Todo: Compile each New England state's reopening guidelines as they pertain to amateur bike racing for promoters and participants to see what racing could look like going forward - Each board member to review one state

Todo: survey our racers to see what their appetite for racing & gathering is -- are people taking the year off, or chomping at the bit? - Brian and Kim to work on this

Time trials?

In MA, no organized adult sports are allowed until Phase 4

CT, currently 25 people, up to 50 people in 2 days, up to 100 in 4 weeks

Possible that there are restrictions on residency. The Rent may happen in some capacity in late July, or as a TT

Long term question: can NEBRA increase accessibility to cycling for minorities?

Next meeting: 8pm July 13th
